

# Tufts eco tour

Office of Sustainability

## Welcome to the Tufts University Eco Tour!

Featuring highlights from Tufts' environmental history

**To take the tour:** Start at Mayer Campus Center. Look for the distinctive sign with a QR code embedded in the leafy branches of a tree. Scan the QR code with your smartphone to get information on that particular stop, plus directions to the next destination on the EcoTour.

Use this map to help you find **all 10 stops** on the EcoTour. Fill in all the blanks on the back of this card and present this at the final stop to win a prize!

# Look for these signs

The QR code that forms the tree's branches is your key to why each stop is a Tufts sustainability highlight. Scan the image with any smartphone. (If you don't already have an app, download one for free.)

Complete this card and **collect a prize when you get to the last stop!** In case you don't have time to do the whole tour all at once, it's useful to know that Stops #1-5 are downhill and #6-10 are uphill. The entire route is just over a mile and takes about an hour to complete.

Good luck and see you at Stop #10!
