Tufts *Sustainability in Action!* gets green

<http://sustainability.tufts.edu>

Volume 2 Issue 6

October 2011

Dear Tufts Environmental,

Check out this [virtual tour](#) of Casella Recycling Plant that was put together for this year's Eco-Ambassadors

We were quite excited to hear recently that a "Go Green" initiative is sweeping through the Arts & Sciences and Engineering faculty meetings. Paper use will be reduced by posting documents online, composting and recycling will be available, and attendees are encouraged to BYOC - Bring Your Own Cup - to reduce waste for beverages. Kudos to all the people who collaborated to make this happen! We sincerely hope that the trend will catch on. Every year, our [Eco-Ambassadors](#) work to start similar initiatives at their offices but you certainly don't have to be an [Eco-Ambassador](#) to be green. Visit [TuftsRecycles!](#) to get started. If you are looking to get more informed/involved, there's no shortage of talks, film showings and conferences coming up.

- Fannie

Upcoming Events

New events are posted regularly on the [TuftsGetsGreen blog](#)  and also on our [Facebook](#)  page. Set up a dedicated RSS feed for the "Events" category to get real-time updates.

Oct 13: Nuclear Power and Climate Change - What's (Not) to Like?

Although much has been written about and expected of energy efficiency and renewables like wind and solar, the one electricity resource responsible for virtually no GHG emissions that is on the ground and running today is nuclear power. Is nuclear power the only way to ensure an effective climate response, a "part of the mix," a three-decade placeholder, an aging white elephant, a threat to future generations, or simply, a "radioactive" technology? Stop by and find out (and voice your views).

Rusty Russell is a full-time faculty member of the graduate Department of Urban and Environmental Policy and Planning (UEP) at Tufts. He teaches courses in environmental law, clean air and water policy, nuclear power, community-based planning, and, for undergrads, environmental policy. He holds a J.D. and has served as a government policymaker, journalist and corporate lawyer. [Read more...»](#)

Environmental Calendar

Don't forget that there's an easy way to keep track of what's going on in the Tufts

sustainability community: the common Google calendar called [Tufts Environmental Events](#).

Additional (including non-Tufts) events are posted regularly on the [TuftsGetsGreen blog](#) .
