

SUSTAINABLE PACKING

Did you know it takes 5 gallons of water to make 1 cardboard box? Use these simple tips to minimize waste while packing for move-in.

ONLY BRING WHAT YOU'LL USE

Start with the essentials and remember that everything you move in, you'll have to move out.

WAIT ON BIG PURCHASES

Wait a week or two after move-in to decide on big purchases like furniture and appliances. Plan with your roommate to share large items.

BE THRIFTY

Find discounted, second-hand dorm supplies at the Back-to-School Sale and on the Tufts Buy/Sell/Trade Facebook group.

PACK IN REUSABLES

Avoid buying boxes and reuse what you already have like laundry bins, backpacks, suitcases, and duffel bags.
