

SUSTAINABLE UNPACKING

Did you know Tufts has a goal to reduce waste by 3% each year? Use these simple tips to avoid the landfill while unpacking at move-in.

HOLD ONTO YOUR BOXES

Keep moving boxes to use as storage in your room or save them for move-out in the spring.

SORT RECYCLING FROM TRASH

Recycling

- Flattened cardboard boxes and packing paper
- Plastic, glass, and metal containers

Specialty Recycling

- Soft plastic film like grocery bags, bubble wrap, air pillows, and plastic padded envelopes

Landfill

- Styrofoam and packing peanuts

BRING WASTE TO DUMPSTERS

Each waste location will have a recycling dumpster with a blue lid, a landfill dumpster with a black lid, and a specialty recycling box.
