

Summer 2018 Projects

Hodgdon Hall Solar Panels

Solar panels newly installed on Hodgdon Hall

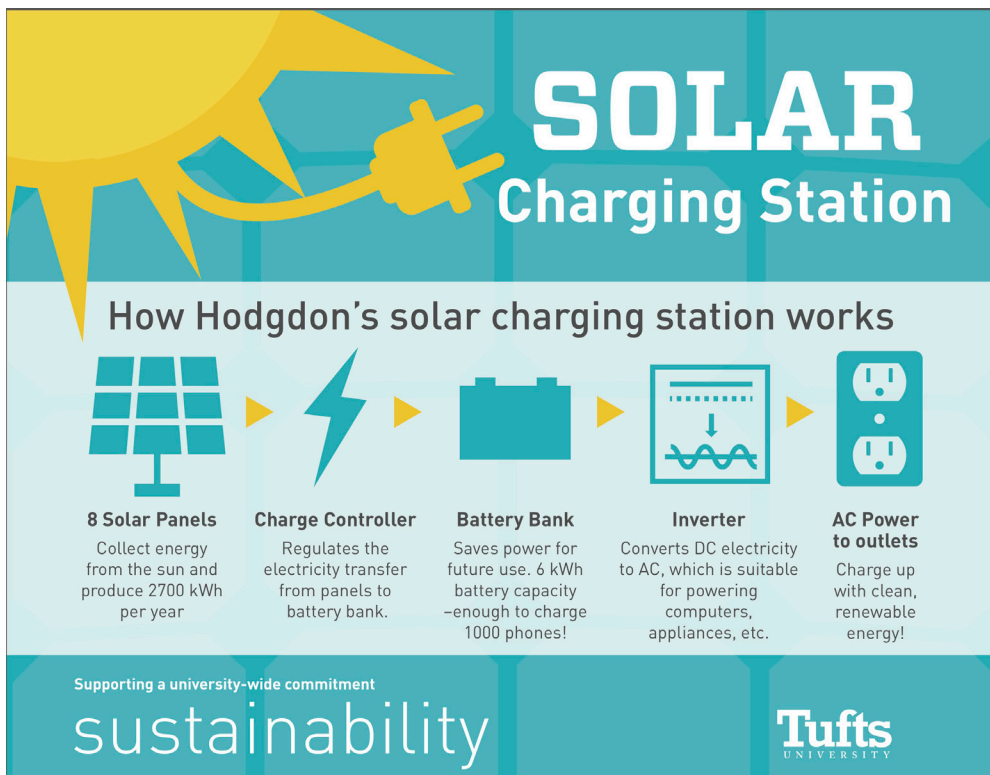

Project Description

Spearheaded by the Tufts Energy Group, this project seeks to provide the campus community with an educational renewable energy experience. Solar panels donated by SunBug solar were installed on the side of Hodgdon Hall to provide power to outlets in the interior common room and outdoor lower patio.

Green Fund Grant
\$6,500

People Involved

Ryan Biette, Undergraduate Student & Tufts Energy Group member
Shelley Kwok, Undergraduate Student & Tufts Energy Group member
Ray Santangelo, Tufts Construction Manager
Chris Robinson, SunBug Solar

Dental School Water Bottle Station

Project Description

In order to promote the use of reusable water bottles, the School of Dental Medicine installed an additional water bottle filling station on a high-traffic floor of their building.

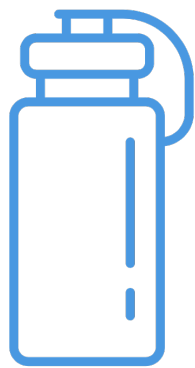

Green Fund Grant
\$3,000

People Involved

Mary-Ellen Marks, Academic Affairs Administrator
Jini McClelland, Administrative Assistant
Talita Turnier, Administrative Coordinator

Rapid Fill Station on the 8th floor of the Dental School

Composting on the Boston Health Sciences Campus

Project Description

Compost was previously unavailable on the Boston Health Sciences Campus. This project encouraged and facilitated the diversion of food scraps from landfills by providing easy access to compost bins. Bins are located on the second floor of the Jaharis Center in the Student Lounge, the Staff Kitchen, and the Faculty and Staff Lounge.

People Involved

Michelle Lee Bravatti, Program Manager
Sandra Aronson, Program Manager Assistant
Emily Wright, Student Volunteer

Green Fund Grant
\$500

Compost bins installed throughout Jaharis
